

Follett Panther™ Barcode Scanner Extended Maintenance Agreement

Peace of mind for years at a time

To help protect your investment against accidental damage, Follett offers the Extended Maintenance Agreement (EMA) Program. With this extended warranty, you will have coverage for an additional year beyond the standard manufacturer's warranty. Plus, our annual renewal cost is less than the cost of a standard repair.

The Follett Panther EMA is a no-fault* service option that includes repair or replacement of any accidentally damaged item, on normal wear-and-tear components, and Panther battery. The EMA must be purchased simultaneously with the scanner unit purchase and is renewable annually.

Compare for yourself:
