

cognite™

Your thinking learning place.

➤ Maximize your resources

when you combine Cognite™ and Destiny® Library Manager™

Cognite brings library, web and digital resources together in one place, creating a content-rich K-12 learning experience for students, teachers and parents. With anywhere access, you can introduce the same pursuit of knowledge that occurs in the library into the classroom. Students will be able to seek answers, not wait for them, and parents will be able to focus on how they can help their kids learn. When paired with Destiny Library Manager, Cognite delivers even greater access and more educational benefits.

Destiny Library Manager integrates with Cognite to create a seamless discovery and retrieval experience, with a range of benefits for teachers, students and parents. Cognite and Destiny Library Manager unite library management with discovery, retrieval and communication to form an unparalleled learning environment.

Support teachers.

- Put the power of the world's leading K-12 library management and student search tool at students' fingertips
- Store and share teacher resources within an easy-to-use product workspace
- Encourage the development of 21st century literacy skills, such as collaboration, critical thinking, problem solving and research abilities, by giving students a space to share ideas and develop solutions
- Integrate library resources easily into Cognite lesson plans through simple drag-and-drop functionality
- Give students a secure, appropriate way to seek knowledge with a collection of more than 60,000 safe Internet sites
- Leverage your district's investment in Destiny Library Manager by expanding its reach to classroom use
- Accomplish rapid standards alignment with Cognite's easy search and tagging features

Empower students.

- Give students 24/7 access to library resources, both in class and at home
- Engage them in learning with an interactive, visually-stimulating search experience and student homework portal
- Provide a safe space for social networking that encourages discussion and idea sharing
- Encourage smart research with a searchable database of educator-approved online resources
- Help students collaborate on projects with instant access to shared resources and easy-to-use communication tools
- Create an environment that reinforces 21st century skills

Involve parents.

- Help parents stay involved in their children's education with easy access from home or work
- Protect their children by having students search Destiny Library Manager's collection of safe, relevant content
- Keep parents up to date on projects, assignments, grades and class activities
- Make it easier for parents to help with homework by giving them access to the same standards-aligned educational resources as teachers and students from home
