

****Third-Party Source Code Contributors:*** This Product includes proprietary source code contributed by the third parties. You may not use any of these third parties' trademarks to promote or endorse any derivative products you may create using the source code unless you have obtained the trademark owner's consent.

If you have a local installation of Destiny version 15.5 or later, information regarding open source components can be located in the Follett folder at the root of a drive (i.e. C:\Follett\FSCDestiny) on your Destiny application server. For Destiny versions 15.5 through 17.5, the file is LicenseInfo.xlsx, for Destiny 18.0 and afterward it is deployment-Destiny_attribution-report.html.

If you have a local installation of an earlier version of Destiny, please contact our Technical Support team for additional information regarding open source components distributed with Destiny.
