DESTINY® 11.0 Supports YOU
Get Ready for RDA and Destiny Dashboard!

Being a librarian means wearing multiple hats. Your job involves connecting students to educational content that supports curriculum in the classroom, bringing educational resources to teachers and maintaining efficiency in the library. Destiny 11.0 supports your job by helping you promote your library as the hub of learning for your school.

Destiny 11.0 features a helpful new tool—the Dashboard—which presents your library’s circulation data in an easy-to-view graphical format to share with administrators and other staff. Now you can closely monitor your library and provide real-time usage data.

Additional Destiny 11.0 enhancements are designed to help you do what you do best, and include:

• Ability to support continuous library improvement through compliance with the latest cataloging rules, RDA (Resource Description & Access). This improves how your resources are categorized and how students search for resources.
• Provide students and patrons with improved searching with new icons for Follett eBooks that make finding digital resources easier and faster for your students.
• Enable users to place holds on multiple titles to ensure your library continues to runs smoothly—just one of the customer-requested enhancements in this release.
